0.5–1.5 lbs/1,000 sq ft  
3–8 gr/m<sup>2</sup>

## ESTABLISHMENT

- Germination: 7–10 days
- First mowing: Approximately 21 days, depending on usage
- Full coverage: 30 days  
First limited use: 60–90 days

**Selection 1 Doob Grass** seed is the best choice for turf managers who need a seeded doob grass, no matter what growing zone they are in India.

## Advantages

**Selection 1 Doob Grass** can use up to 25% less water while maintaining superior turf quality in

comparison to equivalent grasses. It will do very well for spring Dead Spot resistance, early spring green-up and winter survival.

## Performance

**Selection 1 Doob Grass Seed** has expanded turf grass professional's top choice for projects throughout India with excellent turf quality and winter hardiness at both 0.5 inch and 1.5 inch mowing heights. Selection 1 can be seeded on new projects as well as inter seeded into existing turf of similar quality. It will give high output for turf grass quality, colour, density and texture. Additionally, it gives excellent winter survival and cold tolerance. Selection 1 will blend well with other turf-type seeds
